EXPERIENCE

CGI Athens, OH
Technology Consultant - Developer June, 2018 – Present

- Building a Python service to ingest data from a set of Oracle and MSSQL databases and return analysis results using the Pandas library, then write the results to Hive (Apache Hadoop)
- Designed and built a sample Angular front-end with calls to the server side REST API

JPMorgan Chase & Co. Columbus, OH
Technology Analyst Intern - Software Engineering June, 2017 – August, 2017

- Integrated with the Agile Scrum team in the Digital department for front-end component specification development; coded according to company standard patterns
- Developed wire-frames and coded user interface components using React.js for a new internal workflow application which saves user time and improves efficiency
- Collaborated with team members located locally, nationally and internationally via telepresence technologies for daily tasks, special project work, and hackathon preparation

Game Research and Immersive Design (GRID) Lab at Ohio University Athens, OH
VR Developer January, 2017 – April, 2017

- Trained in Unity/C# and virtual reality/augmented reality processes to research a potential data gathering method for a medical training virtual reality application
- Guided visitors of the Game Research and Immersive Design (GRID) Lab with virtual reality experiences

Innovation Center at Ohio University Athens, OH
Client Services Intern May, 2016 – December, 2016

- Edited and tested the user manual for UAV line-of-sight software tool using LaTeX and Git
- Designed promotional materials for international-participant workshop, along with various clients' design needs such as: website design, logos, business cards, VIP lanyards, MailChimp campaigns and other items as required

Chaffin and Company Memphis, TN
Graphic Designer December, 2013 – April, 2015

- Developed the Corporate Identity for the company and clients, including, but not limited to, logo design, website design, business stationery and business cards
